English translation:

From ashes and earth You created us
 With the power of your Spirit You brought us into life
 With the stream of the water You freshened us
 With plants You fed us

Thank you, God, for the nature
 Teach us, God, to love the nature
 Thank you, God, for the nature
 Help us, God, to preserve the nature

From earth You grew shadeness
 With Your power, You made life
 With water, You fertilized all plants
 With animals, You luster life
